FAQs

What is the primary function of a business analyst?

- Business analysts evaluate how organisations work and assist them in improving their procedures and systems.
- They undertake research and analysis to develop solutions to business challenges and assist in the introduction of these ideas to businesses and their clients.

FAQs

What are the pillars of a business analyst?

- Business analysis is built on six core concepts: change, need, solution, context, stakeholder, and value.
- The Business Analysis Core Concept Model describes the links between these Core Concepts in a dynamic conceptual structure.

FAQs

What exactly is a business analysis plan?

- Introduction.
- The Business Analysis Plan serves as a road map for all subsequent business analysis tasks.
- It specifies the scope of the task, which should include a task Breakdown Structure, and may include an Activity List with activity estimates.
- Depending on the size of the project, it could be a summary or a thorough report.
