Literature Review :

- A literature review is a part of academic writing that explains and demonstrates knowledge of the academic literature on a given subject/topic.
- It is considered a literature review rather than a literature report because it also involves a critical assessment of the sources.

Describe all the past work or material referred for the research work

List the books and Study Materials

Approach of Research Study Analysis

This slide is 100% editable. Adapt it to your needs and capture your audience's attention.

Theoretical Review:

- The method of making a theoretical contribution is centred on improving an existing theory with some logic and evidence.
- Through a narrative examination of the literature, this work has primarily concentrated on a few theoretical contribution-related questions and their solutions.
