- **The McKinsey 7S Model** is a tool used to assess a company's "organisational design."
- The model's goal is to depict how an organization's effectiveness can be achieved through the interactions of seven key elements:
  - structure
  - strategy
  - skill
  - system
  - shared values
  - style
  - staff.

### 7 – S Strategy Analysis Framework to Assess Organizational Performance

This slide provides information regarding 7- S analysis framework to assess organizational internal elements in terms of strategy, structure, systems, shared values, style, staff, & skills to ensure that they are effectively aligned and allow firms in accomplishing its objectives.

7S	Current Scenario Assessment		7S	Future Readiness Assessment	
	Description	Aligned		Description	Aligned
 <b>Strategy</b>	Market penetration with projected expansion	✓	 <b>Strategy</b>	No change in strategy required	✓
 <b>Structure</b>	No actual structure	✓	 <b>Structure</b>	More structure will be required as organization gets bigger and require several sites	✓
 <b>Systems</b>	No real systems	✓	 <b>Systems</b>	Present systems are not able to cope with larger organization Requirements for HR systems, project management methodologies	✓
 <b>Skills</b>	No missing Skills	✓	 <b>Skills</b>	Skills gap in terms of HR skills, finance skills, customer support skills	✓
 <b>Staff</b>	Staff are highly motivated and proper incentivized Limited staff to manage present demand	✗	 <b>Staff</b>	Recruitment on large scale No good reward structure for all levels No formalized onboarding process	✗
 <b>Style</b>	CEO managed everything Use transformational leadership style	✓	 <b>Style</b>	Required to bring maturity in present style of working/ functioning	✓
 <b>Shared Values</b>	Team is close – knit and trust each other	✓	 <b>Shared Values</b>	More formalization required	✓
