- **The pilot project** is a small-scale implementation used to test the feasibility of a project idea.
- This could entail either the investigation of a novel new approach or idea, or the implementation of a standard approach recommended by outside parties but new to the organisation.

Artificial Intelligence Pilot Project Canvas

This slide shows project canvas that can be used by manager to provide an overview about AI pilot project. Project name, partners, AI services, benefits to business, channels for engagement and key stakeholders are few sections covered in this slide.

This slide is 100% editable. Adapt it to your needs and capture your audience's attention.

- A prototype can vary from a comprehensive pen and paper drawing to a fully functional version of the product.
- As a result, **Prototype development** is simply a series of processes used by the manufacturer to create the prototype.
- Many people confuse prototype development with prototype manufacturing.

Project Pilot Plan with Predecessor and Successor Tasks

This slide is 100% editable. Adapt it to your need and capture your audience's attention.

Pilot Plan Tasks	Estimated Effort (hours)	Planned Start Date	Planned Finish Date	Dependencies		Employee Responsible
				Predecessor Tasks	Successor Tasks	
» Ideas brainstorming and finalization	10 hours	3 rd Aug '21	4 th Aug '21	• Listing of ideas	• Prototypes creation	• Andrew Joe
» Prototypes development	18 hours	5 th Aug '21	16 th Aug '21	• Idea finalization	• Prototypes testing	• Nancy Ray
» Add text holders

What are the goals of a pilot project?

A pilot project's goal is :

- To assess the quality of an idea
- To test its implementation
- To demonstrate success to stakeholders.

What is the difference between a pilot project and a demonstration project?

- While pilot projects seek to validate value and reduce uncertainty through the discovery of best practises for implementation and operation;
- The demonstration projects seek to accelerate the spread of validated technology by demonstrating value and best practises to inexperienced users *(Bollinger, 2015)*.

What exactly is workplace brainstorming?

- Brainstorming is the process of problem-solving in a nonjudgmental environment in order to arrive at the best possible solution that incorporates bits and pieces of everyone's ideas.
- This can assist you in resolving any workplace issues that may arise, such as previous injuries and hazards.

About Us

- SlideTeam is a premier Research, Consulting and Design agency that develops and templatizes industry processes and best practices, frameworks and models across all industry and verticals to help customers present their strategies effectively and convincingly.
- In addition, Slide Team compiles data and statistics from thousands of sources over a wide range of topics to help customers make intelligent decisions. We develop and present our research in the form of fully editable PowerPoint templates to make it easy for our customers to create presentations based on their individual requirements.
- With a large team comprising of Research Analysts, Statisticians, Industry Experts and Designers spread over 6 countries, SlideTeam now hosts the world's largest collection of Ready to Use PowerPoint templates on all topics and industries.
- Our team consists of professionals from Fortune 500 companies and Top Tier consulting firms involved in the process of researching and designing over a million slides that are available for our users on a subscription basis.
- To Contact Us and set up a Live Product Demo join us [here](#) .
